

School: Yan Oi Tong Chan Cheng Yuk Yee Kindergarten

School Year: 2023/24

Class: K1

Activity: Hong Kong Park Fun

Objective of the Activity:

1. Use perceptual abilities to explore the environment and observe the birds and plants in the park.
2. Through collective parent-child games, experience the joy of group activities, while promoting home-school cooperation.
3. Understand the rules of riding transportation.

Activity Introduction and Record:

Before the activity, teachers and children browse the website of Hong Kong Park to check the types of animals and plants in the park. On the day, the children first go to the artificial lake to observe different living creatures, such as koi, turtles, and dragonflies. Then they go to the bird-watching enclosure to closely observe various birds, with many parents sitting down in the rest areas to quietly appreciate the birds. After the nature walk, the parents and children gather at the Olympic Square with the teachers to play collective games and have a picnic.
