

School: Yan Oi Tong Chan Cheng Yuk Yee Kindergarten

School Year: 2023/24

Class: K3

Activity: Visit T.W.G.Hs. Lo Yu Chik Primary School

Objective of the Activity:

1. Children can recognize the primary school campus environment and learning model.
2. Children can simulate primary school classes.

Activity Introduction and Record:

Through visiting and participating in the primary school experience class, children can understand the differences between primary school and kindergarten, such as classroom activities, school activities, and campus environment, faculty and staff, and student helpers. This can help alleviate their anxiety. They content of the English and math activities, on the day is enriching and interesting, and can also match the children's abilities, and the children are very engaged. During the school visit, when encountering recess time, the children can observe the work of "prefects," "subject leader," and "class leader," and the children also personally interview the content of the work of the relevant student helpers. It is suggested to arrange for the children to line up and use the primary school restroom, so that they can feel the difference between the primary school restroom and the kindergarten restroom (such as the need to close the door when using the restroom, bring their own paper towels, and the toilets and sinks are higher).
