

School: Yan Oi Tong Chan Cheng Yuk Yee Kindergarten

School Year: 2023/24

Class: K3

Activity: Field Trip to the Farmland Activity

### Objective of the Activity:

1. Children can learn the process of organic farming, soil loosening, sowing, and watering.
2. Children can experience the hardship of farming, appreciate the efforts of farmers, and learn to cherish food.

### Activity Introduction and Record:

In the Life Garden, children learn the process of organic farming, soil loosening, sowing, and watering. Children actively participate in farming activities, experience the hard work of farmers, and cultivate a grateful and cherishing attitude towards food. In addition, children learn the “four-step planting process” and extend the learning content to the thematic activities, designing a simulated farming area where they can role-play as farmers and experience the care of crops.
